FIX THESE DANGER SPOTS

The menace of the automobile, is increasing.

The person reading this article has a 1 to 100 chance of being injured this year and 1 to 3500 chance of being killed.

To be exact, out of two persons now living one will be injured in the next fifty years, one out of every four in the next twenty-five years, and one out of every five in the next twenty years.

If you count the circle of your friends up to twenty it might startle you to know that unless they are more careful than the average person, one of them will be injured or killed in a motor vehicle accident within the next five years. These figures are based upon statistics set up by the National Safety Council.

Appomattox county has witnessed many tragic automobile accidents in recent months. The death toll is mounting steadily.

Two of the local danger spots are at Spout Spring and Vera: the elevated blind curve before getting to Spout Spring and the series of curves winding through a row of cedars at Vera. Each of these danger spots could be eliminated. The one at Spout Springs should be straightened and graded to a level, and the Vera curves could be easily straightened. These two spots have taken a toll of at least ten lives, more than enough tocall emphatically for ACTION.

Republican Problem

The biggest problem the Republican party has to face in planning its campaign for the presidency next year is, in our opinion, the A. A. A.

Especiall in the mid west and the west, the rank and file of the farmers are pleased with the efforts of the New Deal to bring them relief. For the G. O. P. to attack the A. A A. merely on the grounds of its constitutionality will not get them many votes in the farm belt. The benefit checks have warded that off, in addition to the general opinion among farmers that the Democrats are really trying to do something for agriculture.

THE FARMVILLE FAIR

Elsewhere in this paper will be found an article about the Five County Fair at Farmville. We are especially impressed with the statement made in the article that the fair is made possible by donations from the county supervisors, the town of Farmville and interested business men, and is nit operated for profit.

That sort of fair is worth while and should continue to be an institution in Virginia. It serves to bring the county folk closer together and focuses attention on the farm and home exhibits. No fair can hope to operate without the active and financial support of the type groups behing the Five County Fair. In fact Virginia would have more county fair if all the counties could muster that spirit of interest and cooperation.

THE 'KINGFISH' PASSES

Only a few times in history has a dictatorship weathered the storms after the passing of the dictator himself. Those that are held together by sheer force of personality and circumstance during the lifetime of the dictator, are usually quickly snuced out on his passing.

The death of Huey P. Long on Tuesday morning, then, will presage the passing of his organization in Louisanna, and the end of one of the most thrilling experiments in American history. It is obvious that the heir apparent, Gov. O. K. Allen, will not fill the shoes of the 'Kingfish.'

Whatever appraisement one put on the political philosophy of Huey Long, one must concede that he was the most colorful character in American public life. No other individual had such forceful personality. No other hommanded such a mass appeal. Any correct estimate of him will find much that was good and much that was bad. He was the flotsem and jetsem of our age. His death will undobtedly have its importance bearing on next year's presidential race and should increase the chances of Roosevelt's reelection.

Lady's Painful Trouble Helped By Cardui

Why do so many women take Cardui for the relief of functional pains at monthly times? The answer is that they want results such as Mrs. Herbert W. Hunt, of Hallsville, Texas, describes. She writes: "My health wasn't good. I suffered from cramping. My pain would be so intense it would nauseate me. I would just drag around, so sluggish and 'dopeless.' My mother decided to give me Cardui. I began to mend. That tired, sluggish feeling was gone and the pains disappeared. I can't praise Cardui too highly because I know it helped me." . . . If Cardui does not help YOU, consult a physician.

Pleased With Park

Richmond, Sept. 11.- Governor George C. Peery, the budget commission, chairman Wilbur C. Hall, and executive secretary, Richard Gilliam of the commission on conservation and development, and several hundred raucous seagulls driven inland by the hurricons along the Atlantic coast joined this week in acclaiming the inrush of water at Douthat State Park when engineers honored the visiting statesmen by letting down flood gates that will form one of the most picturesque lakes constructed by CCC workmen.

The junket to Douthat was a side trip for the official travelers, whose chief object was a tour of Virginia institutions.

Governor Peery announced himself as particularly pleased with the cabins at Hungry Mother after superintendent G. J. Walker and Mr. Kearsley of the state engineering staff had sheperded a careful tour of the site.

WHEN you allow *Headache, Neuralgia, Muscular, Rheumatic, Sciatic or Periodic Pains* to keep you from work or pleasure. You can't go places and do things when you are suffering—and the work or good times won't wait for you.
Why allow Pain to rob you of Health, Friends, Happiness, Money?
DR. MILES ANTI-PAIN PILLS have been used for the relief of pain for more than forty years. They taste good, act quickly, do not upset the stomach, nor cause constipation, leave no dull, depressed feeling.
Thousands have used them for twenty, thirty, forty years, and still find that nothing else relieves pain so promptly and effectively.

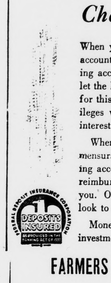
How your MONEY
WORKS FOR YOU IN A
Checking Account



When you put your money in a savings account you get interest on it. In a checking account you get service for it—and let the bank draw the interest. In return for this interest the bank gives you privileges worth far more to you than the interest itself.

When you maintain a balance commensurate with your use of your checking account privileges, the bank will be reimbursed for the expense of serving you. Otherwise, the bank may properly look to you to meet this expense.

Money in a checking account is an investment that pays you real dividends.
